1. The display and extension screen is similar to Excel for easy and fast jungles
2. Can be added, modified and deleted from the same screen
3. To add a new branch for a specific company
 - ❖ The branch name is determined - the branch phone number
 - ❖ Branch Address - City and District of the Branch
 - ❖ Determine the company to which the branch belongs
4. You can filter a specific company to show all the branches data for that company
5. You can also search by branch name
6. The data can be exported to excel or pdf

7. Data can also be imported from excel file

- ❖ Download a demo file
- ❖ Fill in the data
- ❖ Upload the file to the database

8. In the event that there are any errors in the imported data, a file is created with the data that contains problems to amend it and raise it again to complete the process.

Add

1. To add a recipient

- ❖ Determine the recipient's name
- ❖ The recipient's address
- ❖ The recipient's affiliate company (the company is chosen from the previously registered company)
- ❖ Choosing the branch of the company that was selected, and thus the recipient became affiliated with the branch of the chosen company
- ❖ Determine the region of the recipient's neighborhood (where the shipping value is calculated based on the city of the recipient automatically)

Show receivers

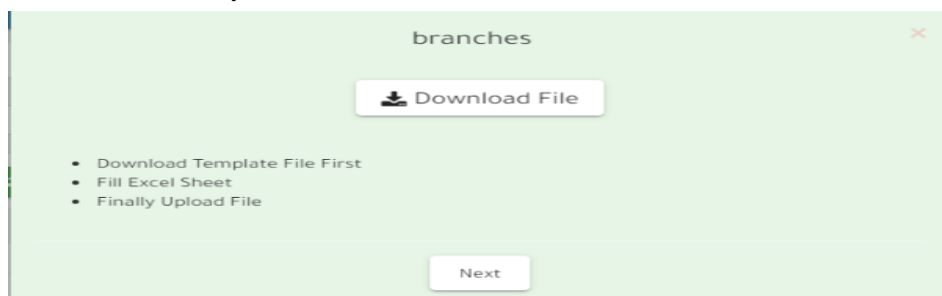

- The recipient display screen contains a lot of features
 - Filter by (the recipient's name - the recipient's company - a specific city or region)
 - You can specify the number of rows to display in the table (number per page).
 - You can also hide and show (Toggle Columns) for the table to display important data and hide others, which helps in the process of exporting data to Excel, where only the columns you want to export are chosen
 - You can also download a demo excel file and fill in the data and upload it back to the database
 - In the case of importing an excel file, the data that does not have problems will be accepted and the other data that contain problems will be displayed and export them as an excel file and the data is modified and uploaded again to complete the process
 - One or more recipients can be deleted from the database
 - Specific recipient information can also be modified
