Add

1. Add a courier

- ❖ Writing the courier name - the courier's address
- ❖ Determine the phone number - and the national number of the courier
- ❖ Select the company the delegate belongs to - write the email (optional)
- ❖ Choosing the branch of the delegate (only the branches of the company that was selected will be fetched)
- ❖ Choose the department belonging to the delegate
- ❖ Write down the courier's insurance number, if any (optional)
- ❖ Writing the courier's scope of work
- ❖ Determine the salary of the delegate
- ❖ Determine the effectiveness of the delegate (active) to determine whether he appears or not

Add Courier sheet

#	AWB	Date	Company	Department	Branch	Receiver	Payment Type	Service	Status	City	Area	Remove	
<input type="checkbox"/>	1	2104182214	2021-04-18	Chubb - C.S	Customer Service	Main Branch - CS	جاءم مهدي حسين مهدي	Account	Normal Delivery	Create Shipment	New Cities	New Cairo	

1. The date of adding the sheet is determined automatically. The current date is determined
2. The delegate is chosen to add the policies to his sheet, as each delegate has a special sheet
3. The section on "Search Awb" works on filtering the policies to select a specific policy to be added to the sheet, where the filter can be
 - ❖ A specific company - a branch of a company
 - ❖ You can search for policies belonging to (a specific city or region)
 - ❖ You can search by policy number
 - ❖ Shipments can also be added via the barcode reader for added speed (barcode scanner)
 - ❖ It is also possible to delete a policy from the sheet before saving it, in case a policy was added by mistake to the sheet
 - ❖ After adding the policies, press (save courier sheet) to save the sheet

Sheet AWB

▼

#	AWB	Date	Company	Department	Branch	Receiver	Payment Type	Service	City	Area	Status	Receiver Name	Receiver Title	Amount After Collection
1	21040660	2021-04-06	Medsure Medical	Mail Room	Main Branch	دكتور علي زيدان	Account	Normal Delivery	Cairo	Sheraton	▼			

1. The sheet number is written to change the policy cases in it
2. When writing the sheet number, all the policies in this line are fetched
3. The status of each policy is changed separately. It is also possible to change the status of all policies at once in the event that all policies will take the same state.
4. If the policy is given a status (Delivered), two entries are extracted, the recipient's name and his description

Courier Commission

The screenshot shows a web application for managing Courier Commissions. At the top, there is a search bar and two filter dropdowns: 'Filter With Service' and 'Filter With Courier'. Below these are buttons for 'Excel', 'Pdf', 'Print', 'Import Excel Sheet', and '+Add'. The main area is titled 'Courier Commissions' and contains a table with columns: '#', 'ID', 'Courier', 'Service', 'Commission', and 'Remove'. The table is currently empty. At the bottom left, there is a blue button with a white '+' icon.

1. Courier commissions can be added, modified and deleted from a single Excel-like screen for quick and easy data entry
2. You can filter by delegate name - service name
3. Adding Courier commissions depends on services
 - ❖ Select the delegate (from the delegates previously registered in the database)
 - ❖ Choose a service
 - ❖ Determine the value of the commission (for the representative in case he is discharged from this type of shipment)
4. The commission of one or more delegates can be omitted
5. The ability to export data to excel, pdf
6. Data can be imported from excel file

The screenshot shows a dialog box titled 'branches' with a close button (X) in the top right corner. It contains a 'Download File' button with a download icon. Below the button is a list of instructions:

- Download Template File First
- Fill Excel Sheet
- Finally Upload File

At the bottom of the dialog is a 'Next' button.

- ❖ Download a demo file
 - ❖ Fill in the data
 - ❖ Upload the file to the database
7. In the event that there are any errors in the imported data, a file is created with the data that contains problems to amend it and raise it again to complete the process.
